NOTE FOR: Acting Chairman, SIG-I

Bob:

Attached are your requested memos to the IG chairmen, plus one for Dave Gries. Please note that in drafting the memos, we considered the following:

- o IG/CM(T) is in best shape because Latham had fewest (less than 20) tasks, and most were under way prior to issuance of President's report. His problems are money, H.R. 145, and the impact of the Moscow mess on IG/CM(T) committee members.
- o IG/CM(P) appears in worst shape because Alderman had the most tasks, and his are bureaucratically the most difficult. Still, his accomplishments are significant, and he is already seized with working two lists: assigned but unstarted tasks, and unassigned tasks. His problems are bureaucratic inertia, and the manpower and funding implications implicit in many of his tasks.
- o IG/CI has the most fulsome report, but some suspect it, and the recent concentration on the IG/CI tasks is also suspect.
- o As you know, the bureaucracy is resisting some of the Presidentially approved legislative initiatives, ergo, the added letter to Gries.

  
Lt Gen Edward J. Heinz, USAF  
Director, IC Staff

SENIOR INTERAGENCY GROUP (INTELLIGENCE)  
WASHINGTON, D.C. 20505

DCI/ICS 0856-87  
20 June 1987

MEMORANDUM FOR: Acting Chairman, Interagency Group/Counterintelligence

SUBJECT: First Biannual Report for the President on the President's  
Report to the Congress on the Nation's Counterintelligence  
and Security Countermeasures, Plans, Programs, and  
Capabilities

REFERENCE: Report from the Chairman, IG/CI, dated 15 May 1987

1. Attached is a copy of subject report submitted to the Assistant to the President for National Security Affairs. A copy of this report will also be provided to the Senate Select Committee on Intelligence (SSCI) and House Permanent Select Committee on Intelligence (HPSCI).

2. Many accomplishments were set forth in the transmittal memorandum, with particular attention called to some initiatives that are currently under way. The IG/CI report is fulsome, extensive, and shows gratifying progress.

3. The next report on progress will be due to the Chairman, SIG-I, via the Intelligence Community Staff on 15 October 1987. In preparing for the next report, focus should be directed to those items deemed most critical in the President's report. We will need to demonstrate accommodation to events occurring since issuance of the parent report.

4. Members of the IG/CI should be prepared to support and defend their statements, as submitted in this first report, to queries by the SSCI and HPSCI. SSCI staffers are already talking of scheduling hearings. This Congressional review process should be borne in mind when preparing the next report, which will cover a full year of the implementation process; by then, definition of the achieved and achievable should be more readily discernable and reportable.

William H. Webster  
Chairman
